				\$10,000.00	2,000,000

Main Game Play Instructions:

Candy-Coated Ca\$h is a connect-style game. A single 4 x 4 game grid will appear on the game screen. To win a prize, the player must reveal a connected cluster of three or more matching symbols on the game screen.

To begin a game play, the player must select the plus or minus buttons below the PLAY AMOUNT to choose the purchase price and then select the PLAY button. After the player selects the PLAY button, the symbols on the game grid will fall and the game grid will randomly fill with new symbols. After the game grid fills with symbols, every connected cluster of three like symbols of the same shape will glow and disappear, regardless of color. Every cluster of three like symbols of the same color will also glow and disappear, regardless of shape. The remaining symbols fall to the lowest possible row and new symbols appear in the vacant game grid areas. The total prize won will appear on the game screen.

When a CHOCOLATE INSTANT WIN symbol appears in the game grid, the player wins the prize amount shown instantly.

The total amount the player wins displays at the end of the game play sequence in the TOTAL WON area at the top of the game grid. The amount won will be added to the BALANCE area at the bottom of the game screen.

CANDY MATCH TRIPLER WIN Instructions:

Whenever three like symbols of the same shape and color are connected in the game grid, the player wins a CANDY MATCH TRIPLER WIN. The amount of the tripled prize depends on the color and shape of the winning combination.

Example: A purchase price of \$1 is selected and three JELLY BEAN symbols that are all PINK are connected for a TRIPLER WIN

- Connecting three JELLY BEAN symbols results in a \$0.10 win
- Connecting three of any shape in PINK results in a \$10 win
- TOTAL WON for connecting three JELLY BEAN symbols that are all PINK is \$30.30 (i.e. \$10.10 x 3)

The total amount the player wins displays at the end of play sequence in the TOTAL WON box at the top of the game grid. The amount won will be added to the BALANCE area at the bottom of the game screen.

CANDY JAR BONUS GAME Instructions:

The CANDY JAR BONUS GAME will activate when the player collects three CANDY JAR symbols during main game play. Six CANDY JAR symbols will appear on the game screen and the player will select the symbols. If a RAINBOW CANDY symbol appears, the player will win the prize amount shown. If a 2X, 3X

or 5X MULTIPLIER symbol appears, the player will multiply all revealed prize amounts by the MULTIPLIER symbol shown. If a RAINBOW CANDY symbol appears before a MULTIPLIER symbol appears, the player will multiply the prize won for that CANDY JAR symbol by the MULTIPLIER shown and win that amount.

The total amount the player wins displays at the end of the game play sequence in the TOTAL WON area at the top of the game grid. The amount won will be added to the BALANCE area at the bottom of the game screen.

Play Features:

Candy-Coated Ca\$h has an AUTO PLAY feature. To use this feature, the player must first select a PLAY AMOUNT by using the plus or minus buttons to choose the purchase price for each individual game play. Then, the player must select the AUTO PLAY button and the number of consecutive game play rounds to AUTO PLAY.

The player may choose to AUTO PLAY 5, 10, 15, or 20 consecutive game play rounds. To begin the AUTO PLAY sequence, the player must select the START AUTO PLAY button.

To stop the AUTO PLAY feature, the player must select the STOP button. The player may use the STOP button at any time to stop the AUTO PLAY game plays once the current game play has completed. The AUTO PLAY sequence automatically stops when a player wins a single prize greater than \$600 in any single game play.

If the player wins a single prize greater than \$600, the tablet and the card will lock, and no additional game plays may be purchased. The player must remove the card to unlock the tablet. The player must present the card to the participating retailer to unlock the card and complete a prize claim form to continue playing using the card.
